

Chair for taking blood-tests

The chair is designed in consultation with hospital professionals. The arm rests are very stable and easily adjusted.

Frame

Five-footed base of aluminium.

Seat

Rotates, step-less adjustable sitting angle, height 43-56 cm. Vertically adjustable by means of a gas spring.

Back rest

Easily adjustable height and angle. Angle adjustable by means of a gas spring.

Arm rest

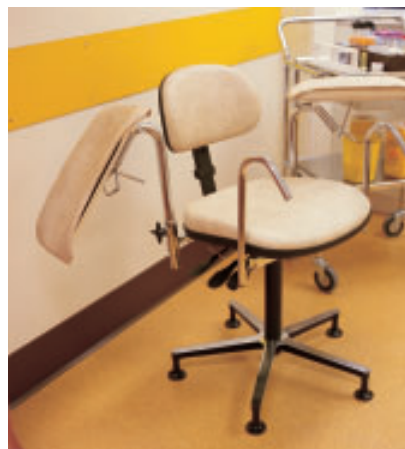

Very stable, concave arm rests, fully and easily adjusted. The arm rest pad can be turned and used on both sides.

Patient handgrips

Very stable patient handgrips, make it safe for the patient to get on and off the chair. Adjustable in width between 60-70 cm.

Upholstery

Imitation leather. Beige is the standard colour. Available in a large selection of colours that can be matched to the room decor.
