

Combi-Gyn

Combination gynaecology and general examination table with two electric motors. The table is designed in consultation with hospital professionals for maximum patient-comfort, user-friendliness and ergonomic design.

Frame

Epoxy-coated or chromium-plated. High-quality, all-welded steel tubes. Stable construction. Easy adjustments and a low minimum height together with a high maximum height make the table both patient- and user-friendly, providing maximum accessibility as well as an ideal working level.

A paper dispenser, a tear-off edge and an accessory-mounting rail are included.

Back rests

The backrests are adjustable by means of gas-springs.

Seat angle and Trendelenburg position

Variable adjustments with electric motor. The seat cushion is easily removed for cleaning.

Leg holders

Fully adjustable leg holders, also adjustable along the seat on the accessory-mounting rail. Legholders and patient handgrips can be removed easily which facilitates disabled patients transfer from a wheelchair or a bed.

Pads

Pads covered with imitation leather provide excellent comfort. Available in a large selection of colours that can be matched with the examination room decor. Beige and light blue are standard colours. The top has a guard-rail that protects the pads against damage.

Tray

Large, stainless steel pullout tray with plane bottom.

Storage/Plastic cover

The plastic cover is a storage box and makes cleaning easier.

Motors

220-240 V. Available with battery back up. Hand control is standard, foot control as an accessory, both running on 24 V.

Wheels

125 mm central-locking castors.

Dimensions and specifications
