

## Serving and transport trolley with fixed plastic laminate- or stainless steel shelves

### Design

The trolley is furnished with two push handles. One is semi-vertical and the other one is horizontal.

### Shelves

The shelves have raised edges. They are made of beechwood plastic laminate or first class stainless steel with a sound absorbing 16-mm board on the reverse side. Easy to clean between shelves and frame.

### Frame

All-welded, chrome-plated 22 mm tubular steel frame, with a very solid and stable construction.

### Wheels

125 mm swivel castors with grey rubber tread. The front castors with bumpers.

### Dimensions

Incl. push handle, model 70x50: 97x55x95 cm (LxWxH).

Incl. push handle, model 95x55: 122x60x95 cm.

Height up to upper shelf 85 cm.
