

# **2-sectioned examination table** Including Trendelenburg position and castors

The Examination table is designed in cooperation with hospital professionals, focusing on functionality, ergonomic design and quality.

Electrically or hydraulically height adjustable, manul gas spring adjustment of backrest and Trendelenburg (electric versions available as option on the Electric models)

## Chassis

All-welded chromium-plated chassis, sturdy construction with 4 lifting points. This design makes the table very sturdy.
